What is Sedex?

Sedex is:

- A not-for-profit membership organisation for companies who wish to address ethical and responsible supply chain issues in their supply chains
- A web-based database that enables global suppliers to share data about ethical and responsible practices with their customers in a common way
- A tool that enables companies to analyse and rate potential risk

Sedex is not:

- It is not an organisation which sets policy
- Sedex does not pass, fail, certify, or score suppliers
- It is not a social auditing company that conducts social audits
- It is not a certificate issuing organisation
- It is not a tool to promote suppliers
