Wrap-Up & Closing

ROAD TRANSPORT DUE DILIGENCE EVENT
24 SEPTEMBER 2026

What we've heard

- Shippers are serious about respect for human rights in road transport
- Compliance with legislation is mandatory → RTDD guidelines will help carriers navigate and implement regulatory requirements
- Shippers' expectations for responsible business conduct in road transport will be verified through assessment approaches → drivers will be the witnesses of positive change
- Carriers and shippers need to remedy negative human rights impacts before they become “news”
- Collaboration between shippers and carriers is key

What next

- Plan is for edited recordings to be made available
- Use the RTDD Foundation guidance – to be made available online after the event
- AIM-Progress will encourage its members to use this guidance framework in their supplier engagement
- We intend for this conversation to continue...
